Thanks. I just need the names. I have a document from a while ago that had EPA comments, but it just showed "EPA" not a person. No rush.

Ex. 5 - Deliberative

I worked with OWOW on compiling the comments last year. It was Mindy Eisenberger and a staff person. I have the emails on my computer at work and I'm at home with the iPhone. I will send send what I have tomorrow when we return to the office.

Sandy,

You mentioned that there were many Regional commenters on the proposed Stream Protection Rule. Do you have a list of those commenters? Can you share with us. If any are WQS folks, we can have a discussion with them through SHPD. If they are really 404 folks, then I will leave it to Tim.

Shari
